

SRI / ESG STRATEGY FACILITATION

An SRI-Connect product for listed companies

We work with your team to develop a plan to engage sustainable investors in a way that supports your broader investor-related objectives.

Product details

We will facilitate for your investor relations and sustainability teams a half-day planning session that updates you on industry development and guides you through the process of collaboratively identifying priorities and making a sustainable investment plan setting that best meet your company's needs and resources.

When you might need this

Companies use this service when:

- they are planning their sustainable investor comms strategy for the year ahead
- they need to engage members of different teams in their sustainable investor outreach
- they receive high levels of investor interest in their sustainability exposure and practice – hence demanding significant resources

What we do

- Prepare for and facilitate a session with your team

How much it costs

- GBP 2,500 (+ VAT in the UK)

What we need from you

- A preparatory call to understand your needs, perceptions and questions
- The relevant people (from your IR & CSR teams) participating in a three-hour facilitated session

What we deliver

- The facilitated session
- A summary note of the session covering the issues that arose, the decisions taken and our recommendations for progress
