

RETAINER

An SRI-Connect product for listed companies

We deliver whatever combination of information, guidance, support or services you need to deliver an efficient and ongoing sustainable IR programme

Product details

In our experience, many companies know that they need help but don't know what help they need or when they will need it.

To avoid discomfort about using us as a reference point with any questions - no matter how large or small - we offer a retainer programme whereby companies commit to pay for a number of hours of advice and use the contracted time up as and when needs arise.

When you might need this

As above, companies use retainer packages when they know they need to improve (the efficiency and reach of) their sustainability communications to investors but don't know how to do so.

What we need from you

- A rough understanding of your aims and ambitions in respect of sustainability and investors

What we do

- Respond to your needs and questions as and when they arise – tracking the time spent

What we deliver

- Answers, information, introductions, logistics and other support as requested

How much it costs

- £1,500 + VAT (UK)
