

RETAINER PACKAGE

An SRI-CONNECT product for listed companies

Improve your firm's access to sustainable and responsible capital
Comprehensive package: strategy, targeting & execution support

CONTEXT

Many companies know that they need help and ideas to progress their SRI/ESG communications. However, they don't always know what help they need or when they will need it.

While we are always keen to help for free, some companies find it uncomfortable to ask a small business for help repeatedly without recompense.

PRODUCT & PROCESS

To avoid discomfort about using us as a reference point as and when needed, we offer a retainer product whereby companies pay in advance for eight hours of support, advice, questions, briefings etc.

Companies typically contract for 8 - 12 of our time at a point and use this up over a period of months.

We track time as we deliver the support as requested.

PRICE

- Price: 2,000 + VAT (UK) for eight hours to be taken whenever required
- Discounts available for longer periods of expected work
