

INVESTOR SUSTAINABLE INTEREST EVALUATION: CLIMATE CHANGE

An SRI-Connect product for listed companies

We explore and explain the interest in and activity on climate change by your largest investors

Product details

We will assess the interest of your largest investors in climate change and the investment actions that they are taking to address the issue. This will help your board members, senior executives and other colleagues understand whether / how actions that you take on this issue will have investment consequences.

When you might need this

Companies typically use this service:

- Either when they want to engage their investors (via active outreach) in their response to climate change challenges
- Or when they find themselves to be the targets of engagement / activism by investors on this topic
- Or when they need their own team to understand the extent and nature of investor interest in climate change

What we do

- Assess the interest of your largest investors in climate change and the investment actions that they are taking to address the issue.

How much it costs

- £1,500+ VAT(UK)

What we need from you

- A list of your most significant 25 investors (typically your top 20 together with any particular target investors)

What we deliver

- A report that profiles the interest of a company's current and target investors in climate change with notes on how they translate this interest into investment action
